

PARTNERING FOR SUCCESS

INTRODUCING BALDWIN PREPARATORY ACADEMY

New levels of career opportunity have come to Baldwin County, and to take advantage of them, our students need a new way of learning. Baldwin County Preparatory Academy is designed to prepare high school students for the future of their choice, whether that's career, college or both.

All Baldwin County students will be eligible to attend this unique career tech school full-time beginning in fall 2024. The curriculum is unique to the school, developed and led by business and industry partners in fields like mechatronics, aviation, cyber security, welding, healthcare and more. Baldwin Prep will also offer business and industry partnerships for internships, cooperatives and apprenticeships.

WHY PARTNER?

Becoming an industry partner in the Baldwin Preparatory Academy is an opportunity to support the state's first stand-alone career-tech high school. By partnering with Baldwin Prep, you are supporting the success of individual students and the future of our regional workforce by providing the tools necessary to succeed in both college and immediate careers. Baldwin Prep's industry partners will have first-hand access to the development of impactful curriculums and programming to prepare future generations for careers in our region.
